

# Serving Montana Food & Farm Business Entrepreneurs

We support Montana communities by providing information, technical assistance, and financial resources to elevate local and regional agricultural and food business entrepreneurs.

The Northwest and Rocky Mountain Regional Food Business Center (RFBC) Montana team is led by the Montana Department of Agriculture, Montana Farm Bureau, Montana Farmers Union, Montana State University, the Grow Montana Coalition, and three at-large members.

We serve Montana food and farm business entrepreneurs by:

- Connecting entrepreneurs to available resources such as the Montana Food and Agricultural Development Center (FADC) Network
- Supporting technical assistance programs, curricula, and one-on-one business education
- Investment in on-farm and value added projects
- Providing professional development opportunities
- Coordinating strategic sharing of resources

## Who We Serve

We are committed to serving all Montanans, with focus on:

- Small- to mid-size food and farm businesses and entrepreneurs
- Underserved stakeholders (rural communities, new entry and urban farmers, BIPOC communities, Tribal Nations, veterans, regions of persistent poverty)
